

Nouman Ahmad

Senior Mobile Application Developer at Remote

I'm a professional IT Expert, working in the industry from , I have started my journey as an web developer in angular. Created O3 Websites using angular material, Javascript,node.Have been working on React, React Native, from I have managed & created various apps like ecommerce, educational & social media. Have good expertise in NodeJS for creating API.

Skills & Strengths

- angular material
- React native
- CSS 3
- React
- TypeScript
- Redux
- Bootstrap
- Node Js
- Angular
- HTML 5
- JavaScript

Experience - 5 years

Software Engineer (RN)

ERITHEA LABS - Lahore, Pakistan | Dec 2021 - Sep 2024

Software Developer

NKU TECHNOLOGIES PVT LTD. - Lahore, Pakistan | Oct 2020 - Dec 2021

Projects

Criclay

Sep 2023 - Sep 2024

<https://www.criclay.com/>

This app build in React for web and React native cross platform for android and ios plateform.

We use the TypeScript as language and redux toolkit as global state management.And we use GraphQL for apis.

As a pivotal contributor to the development of the Criclay app, I played a key role in creating a comprehensive solution for cricket enthusiasts, teams, and tournament organizers. Criclay is a cutting-edge mobile application designed to revolutionize the cricket experience by seamlessly integrating tournament management, scoring, and live streaming functionalities. This app caters to the diverse needs of cricket aficionados, providing an all-in-one platform for organizing, scoring, and broadcasting cricket tournaments.

Key Responsibilities and Achievements:

1. Tournament Management:

- Engineered an intuitive tournament management system that simplifies the process of organizing cricket tournaments.
- Implemented features for creating and customizing tournament formats, scheduling matches, and managing participant teams.

2. Live Scoring:

- Developed a robust live scoring module that enables real-time tracking and recording of match statistics.
- Incorporated user-friendly interfaces for scorers to input data effortlessly, ensuring accuracy and efficiency during live matches.

Education

Comsats University Islamabad

Abbottabad / BS Computer
Science
(2020)

Unique College

Lahore / FSC
(2015)

Slr Syed Model Hlgh School

Sheikhupura / Matric
(2012)

Certifications

- CEF
IEEE Computer
Chairperson | 2018

Languages

- Punjabi - Native
- Urdu - Medium
- English - Medium

Hobbies

- Travelling
- playing cricket
- Badminton
- paper reading
- computer gaming

3. Live Streaming:

- Spearheaded the integration of live streaming capabilities, allowing users to broadcast matches directly within the app.
- Collaborated with multimedia experts to optimize video quality and ensure a seamless viewing experience for cricket fans worldwide.

4. User Engagement:

- Implemented features to enhance user engagement, including live commentary, match highlights, and player statistics.
- Designed interactive elements to foster community participation and discussion among cricket enthusiasts.

5. Technological Innovation:

- Utilized state-of-the-art technologies to develop a scalable and responsive app, catering to a diverse range of mobile devices and screen sizes.
- Implemented push notifications to keep users informed about match updates, scores, and upcoming events.

6. Collaboration:

- Worked closely with cross-functional teams, including designers, backend developers, and quality assurance professionals, to ensure a cohesive and high-quality user experience.
- Collaborated with stakeholders to gather requirements, provide regular updates, and incorporate feedback throughout the development lifecycle.

The Criclay app stands as a testament to my ability to conceptualize, develop, and deliver innovative solutions in the sports technology domain. It showcases my proficiency in full-stack development, user interface design, and effective collaboration within a dynamic team environment.

Krispx

Erithea Labs | Apr 2023 - Aug 2023

Tools: React Native, Node Js

Krispx is basically a car selling & purchasing app, in which sellers can list cars for sale, maintain promotion & test drives through the app. It has a buyer side also, so it gives pak wheels type experience but with much more enhanced features.
